

Hazardous Materials

Overview

This module highlights the need for awareness when working in the industrial interface. In recent years, this has become more of a concern to wildland firefighters.

Facilitator Quick Checklist

The following are the most important tasks that should be considered before implementing this module:

- ✓ Preview the Hazardous Materials Module on the DVD
Develop a list of hazardous materials or known hazards in your area for reference

Time	Facilitator Tasks	Refer To
1 min	<ul style="list-style-type: none"> Introduce module overview listed above.	
11 min	<ul style="list-style-type: none"> Play DVD Module 7: <u>Hazardous Materials</u>	DVD 7
1 min	<ul style="list-style-type: none"> Break students into groups of 4 or 5 and turn to the Student Workbook.	SW 1

Time	Facilitator Tasks	Refer To
10 min	 <ul style="list-style-type: none"> Instruct groups to read the following passage and take 10 minutes to prepare a list of local industrial hazards. If time allows, you may select a scribe to record some of the most relevant hazards on a flip chart or white board for the entire class to see. Conduct a class discussion addressing hazardous materials in your area. <div style="border: 2px solid black; padding: 10px; margin-top: 20px;"> <p style="text-align: center;"><u>Hazardous Materials Exercise</u></p> <p>Your unit is experiencing above average fire activity this season and numerous resources have been brought in from out of the area. You have been tasked with briefing an incoming crew on the standard operating procedures for industrial interface hazards in your unit. Create a list of any and all industrial interface hazards that you are familiar with in your area. How can these hazards be mitigated?</p> <hr/><hr/><hr/><hr/><hr/> </div>	SW 1
